

Niedbala Water Abatement: Mr. Niedbala applied for a water abatement several months ago. The Select Board asked the Water Division to investigate. The investigation revealed no errors in recording water information. The Collector makes a recommendation to assess at the agricultural rate, which the Town has done in other cases. The amount of the abatement is \$1,293.89.

RE: Niedbala Water Abatement

Per our conversation of this date regarding the above abatement request, past practice has been to charge at the standard rating structure for the usage of an average of three cycles, and charge the balance of usage at the agricultural rate. In this instance, we would charge 4500 cubic feet at the standard rates and 51784 at \$2.25. This would result in a water abatement of \$1,293.89.

Should you need further information, please let me know.
