

Water Treatment Plant Operator: Permission is sought to advertise for the water treatment plant operator position. The DEP temporary staffing plan is expected to expire in early August, so finding a replacement is important.

HADLEY DEPARTMENT OF PUBLIC WORKS

To: Hadley Select Board

From: Michael Klimoski, Acting DPW Director

Date: July 13, 2015

Re: Water Division Position

There is a position in the Water Division that is currently vacant. We need to advertise for this position. Once we receive and review the applications, we should eliminate the number down to three or four applicants and start interviewing as soon as possible.

With the Select Board's permission, I would like to start this process. The staffing plan that was submitted to DEP was only good for ninety days, dated May 12, 2015. This ends on August 12, 2015. The DEP requires three full-time employees that work for the water division. Also, I would like to add that this new employee will have to help with snow plowing when the need arises.

Michael Klimoski

Acting DPW Director
